EDUCATION

Vignan's Institute of Information Technology

Bachelor of Technology in Computer Science and Engineering | CGPA: 9.05/10

Visakhapatnam, Andhra Pradesh

Expected May 2027

Dr. Sarvepalli Radhakrishnan Junior College

Intermediate (MPC) | 96.9%

Anakapalle, Andhra Pradesh

Sep 2021 – Mar 2023

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, HTML, CSS, SQL

Technologies and Tools: React.js, Node.js, Express.js, MongoDB, FastAPI, Socket.io, AWS Fundamentals, Git, GitHub, VS Code

AI and ML: Prompt Engineering, NumPy, Pandas, Scikit-Learn, LLM Integration

EXPERIENCE

Open Source Contributor – GirlScript Summer of Code 2026

May 2026 – Present

GirlScript Summer of Code (GSSoC'26) | [Profile Dashboard](#)

Remote

- Contributed to open-source projects during GirlScript Summer of Code 2026 by developing front-end features, implementing backend enhancements, resolving issues, and enhancing overall application functionality.

AI Foundations Intern – Microsoft Edunet Initiative

Apr 2025 – May 2025

Edunet Foundation – Microsoft AI Program | [Certificate](#)

Remote

- Engineered a Sanskrit translation tool using Python and Gemini API, processing 30+ Sanskrit inputs and completing the project from planning to deployment.
- Applied prompt engineering and optimized system prompts through 5+ iterations to improve translation clarity and response consistency.

PROJECTS

Near Meds | [React.js](#), [Node.js](#), [MongoDB](#), [Groq API](#), [Tailwind CSS](#), [Socket.io](#), [Leaflet](#)

[Live Demo](#) | [GitHub](#)

- Developed an AI-powered emergency response platform that enables real-time information sharing between paramedics and nearby hospitals, reducing life-threatening delays during emergencies.
- Integrated the Groq API to generate structured emergency medical reports from patient symptoms and previous medical information, improving clinical accuracy.
- Implemented real-time communication and location tracking using Socket.io and Leaflet to identify nearby hospitals and optimize emergency routes.

Siddhartha EduHub | [React.js](#), [Node.js](#), [Supabase](#), [Tailwind CSS](#)

[Live Demo](#) | [GitHub](#)

- Designed and deployed a comprehensive School ERP and student management platform for a real educational institution, streamlining academic, administrative, and communication workflows.
- Implemented role-based authentication and dedicated dashboards for students, teachers, and administrators using Supabase Auth and secure access controls.
- Managed student and academic records while enabling performance monitoring, information management, and workflow automation.

CERTIFICATIONS

Artificial Intelligence: Oracle Certified AI Foundations Associate (Oracle) | [Certificate](#)

Core Engineering: DSA in C++ Bootcamp (Let's Upgrade) | [Certificate](#), Python Essentials (Cisco) | [Part 1](#) & [Part 2](#)

Web Development: Introduction to Front-End Development (Simplilearn) | [Certificate](#)

ACHIEVEMENTS

Winner – Idea2Impact: As Team Lead, secured 1st place in a national-level ideathon at Gayatri Vidya Parishad College of Engineering, Visakhapatnam | [View](#)

Runner-Up – Sus Hacks 3.0: As Team Lead, secured 2nd place among 100+ teams in a hackathon at Vignan's Institute of Information Technology | [View](#)
